

MultiMedia and AudioVisual Solutions from Pyramid Valley

Interactive Whiteboard Solutions

Multi-Media systems are playing an increasingly important role in Schools and Colleges.

At Pyramid Valley we recognise that there isn't one interactive whiteboard solution that fits all needs.

We can supply traditional whiteboard and projector equipment, but can also supply whiteboards with integrated projectors and plasma based solutions, allowing us to supply and install a solution that is a perfect match to your requirements.

We are approved suppliers of SmartBoard and Promethean based solutions, so whatever your preference we have the solution for you.

We are also able to provide a comprehensive range of accessories allowing screens to be raised and lowered, meaning even the smallest child or tallest adult can use the equipment effectively

Senteo interactive response system

Senteo now offers the new features of Senteo assessment software 2.0. This versatile teaching tool gives you instant insight into how well students understand your lessons.

It combines wireless remotes, a receiver and powerful software to help you conduct assessments and report, track and analyze the results. Students use the remotes to provide instant responses to questions and quizzes, and the software automatically tallies, summarizes and files the results.

SynchronEyes Classroom Management Solutions

SynchronEyes software gives you control over your classroom, enabling you to guide your students attention, discoveries and learning while creating a truly collaborative atmosphere at the same time.

- See What Students are Doing
- Take Control of any Classroom Computer
- Keep Students focussed on learning
- Facilitate Student collaboration
- Intuitive interface
